About Us

At Fantom Teardrops, we believe that adventure should be accessible to everyone—not just a select few. That belief is what drives everything we do.
Our journey began with a simple idea: build a teardrop camper that combined timeless design, practical comfort, and true affordability. Like many outdoor enthusiasts, we spent years hiking, exploring, and searching for the perfect camper to take along on our adventures. But what we found was either mass-produced units lacking character or high-end builds priced out of reach for most people.
So we decided to build our own.
What started as a personal project quickly turned into something more. Friends, fellow campers, and curious onlookers began asking about our teardrop—how it was built, where they could get one, and if we could build one for them. That demand sparked the beginning of Fantom Teardrops.
From day one, our mission has been clear: create high-quality, thoughtfully designed teardrop campers that don't break the bank.
Every Fantom Teardrop is built with care, attention to detail, and a hands-on approach you simply won't find in mass production. We don't believe in assembly-line campers. Each unit is crafted individually, allowing us to focus on quality materials, solid construction, and the little details that make a big difference on the road and at the campsite.
Because we build in smaller batches—not on a factory line—we're able to maintain a level of craftsmanship and customization that sets our trailers apart. It also means we can stay true to our roots: building something we'd be proud to take on our own adventures.
At the end of the day, Fantom Teardrops isn't just about campers—it's about helping people get outside, create memories, and experience the freedom of the open road.
Whether you're a weekend explorer, a national park wanderer, or just someone looking to simplify your adventures, we're here to build something that fits your journey.

Fantom Models

Adventure LT

Our Adventure LT is our lightest model with a dry weight of just under 900 lbs! The Adventure LT is for those who want a lighter weight trailer but still want a quality built teardrop. It sure doesn't hurt that the price is great as well!

Badlands

Our Badlands model comes standard with the offroad wheel package and pull out shelf with cup holders.

A more curved front end and sporty stripe decal are just the outside changes! See the interior differences in the interior section of this brochure.

Fantom Models

Overlook Premium

The original Overlook Premium model is perfect for a variety of campers! Add any of the upgrades available to make it your own. As with all of our models, any other modifications could be possible as well. Please contact us if you would like to discuss any additional options.

Overlook XT

Our Overlook XT model is an extended version of the Overlook Premium that is perfect for a family with small children or for those campers who just would like more storage space inside the cabin.

Internal Construction

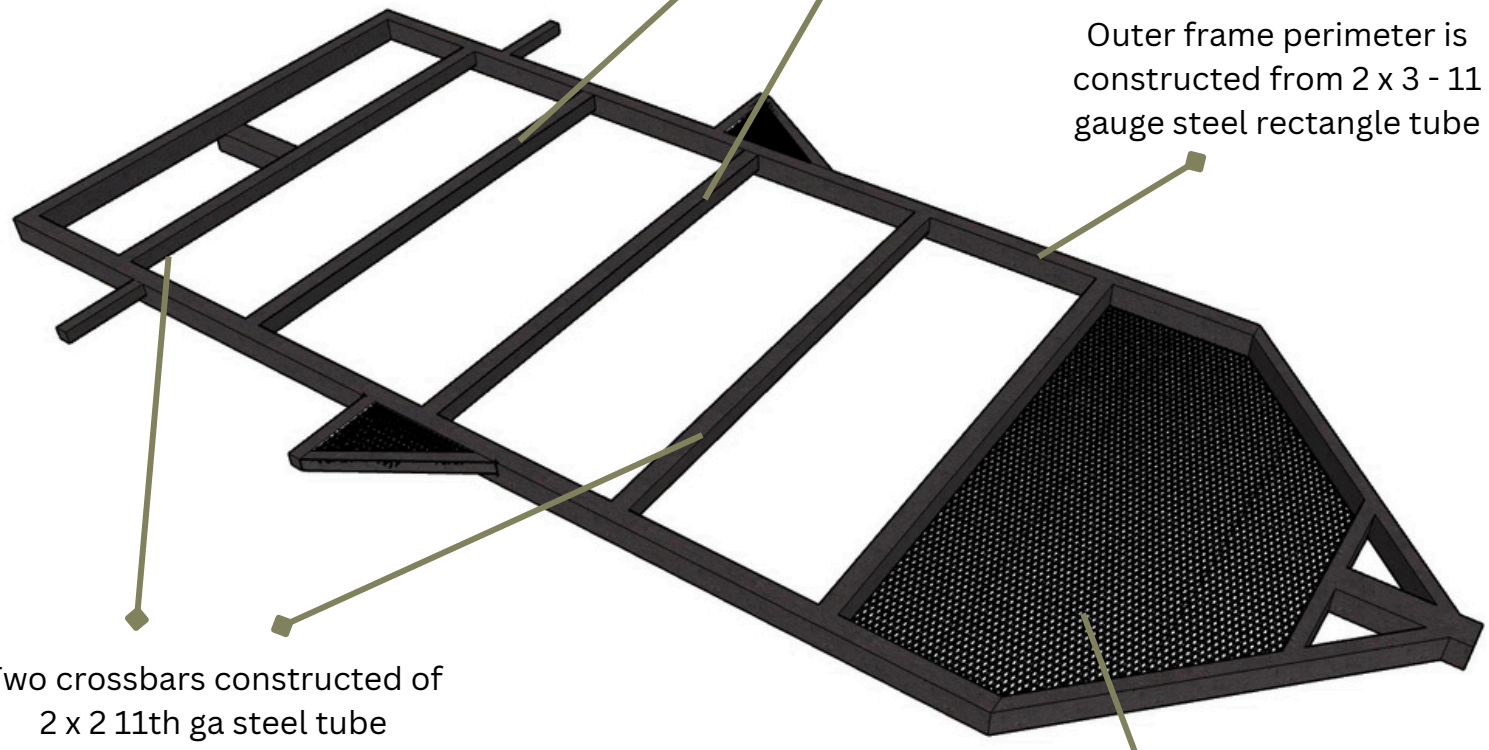

- Outer Wall Panel - 3/4" Birch Plywood
- Internal Insulation - 1/2" R3 Insulation Foam Board
- Interior Wall Panel - 1/4" Birch Prefinished Plywood

With the roof rack installation, we add two steel crossbars to attach the roof rack from the inside to the outside exterior. Doing this strengthens and stabilizes the roof rack and eliminates unsightly bolts in the interior.

Frame Construction

*****All of our frames are powder coated with a black textured coating for more durability and enhanced appearance.**

Upgrade Options

Undermounted Spare - $260

Regular trailer wheel mounted underneath the trailer.
This style trailer wheel can also be mounted on the side at no additional charge and comes in black, white or chrome.

Side Mount Offroad Spare - $363

Off road wheel and tire is mounted on the side of the trailer for a more rugged look as well as easier access.

Torsion Axle with Electric Brakes - $700

3500 lb. torsion axle is a 20-degree axle. A 45-degree axle can be requested for higher ground clearance.

Electric Brakes Only - $272.25

Can be added to the standard leaf spring axle.

Off Road Wheel Package - $496.10

“This comes standard on the Badlands model, though the design is slightly different. Refer to the Badlands images for a visual”

15" x 8" wheel package with 5 x 4.5" lug pattern. We can also do custom wheels to match your vehicle as long as they are the same bolt pattern. Price may reduce or increase, depending on the wheel/tire you use.

Exterior Marine Grade HDPE Table - $181.50

This outdoor table is detachable for travel and can be housed inside the cabin during transport. The leg inserts into a bracket that is welded to the frame so when your trailer is level, your table will be also!

Powder Coated Roof Rack - $484

Roof rack is mounted to an internal steel brace to give it the max amount of stability and to be more visually appealing from the interior. No visible bolts inside the cabin!

Overland Vehicle Systems 19609927 XD Nomadic 180 Degree Awning - $810

The OVS 180 degree awning is 88 Sq Ft of Coverage. Comes with integrated LED lights and has OVS Blakout Technology.

Rear Trailer Hitch - $121

The rear trailer hitch for a bike rack is a great option if you like to bike during your camping trips.

Front and Side Diamond Plate for..

Premium & Badlands - $526

XT - $605

Front ONLY for All Models - $163.35

We have three colors to choose from! Gloss Black, Dark Gray, and Polished Silver.
(See color reference page for digital color sample)

12V Marine Grade Battery - $296.79

****Not needed if selecting the solar package****

Power your 12V outlets, lights, fan and cooler while boondocking. Charges from your vehicle while in route to your destination. A great option if you're not quite ready for a solar upgrade.

Solar Hookup Only with Battery - $445.00

Have your own solar panel? We've got you covered! We will install a solar hookup and install a 100 Ah AGM battery so all you have to do is plug up your unit and start enjoying the outdoors!

Renogy 200 W Solar Package - $710.00

This solar package includes the portable panels, solar controller and 100 Ah Renogy AGM Battery. You'll be all set for off grid camping!

Legacy Series 190 Watt Portable Solar Package - $1,175.00

This solar package also includes the portable panels, charge controller and 100 Ah Renogy AGM Battery.

Front Storage Utility Chest - $550

This utility chest is great to keep your necessities in, like your hoses, power cord, wheel chocks and more! If getting a utility chest and a battery, the battery will also be housed inside the utility chest with exterior switches.

Stargazer Window - $363

Bring the outside in and gaze at the stars with this 45" x 9" stargazer window!

Hot Water Heater/Shower Combo - $755.70

Great to have for warm showers while boondocking or while camping in cooler weather. The unit is housed inside a Pelican box. **This purchase does require the purchase of a 11 lb. propane tank**.

5,000 BTU AC Unit - $363

Beat the heat with the 5,000 BTU Air conditioner! This AC comes with a dehumidifier feature and also comes with a remote.

Slide Out Shelf with Dual Cup Holders - $181.50

The slide out shelf is great for holding your laptop or other belongings. The cup holders are great way to keep your drinks from turning over.

*****Not available for the Badlands model. The Badlands model comes standard with it's own pull out shelf*****

Stainless Steel Countertop - $302.50

Elevate your kitchen aesthetics with a stainless steel countertop and backsplash. Stainless steel is durable and also has antibacterial properties!

10 Gallon Fresh Water Tank - $514.25

An essential for camping at campsites with no water supply!

Stainless Steel Sink - $363

15 x 15 x 6 stainless steel sink with brushed nickel faucet.

SetPower PT35 Fridge Cooler - $363

The dual zone SetPower PT35 cooler fits perfectly into your cooler drawer and still give you 35 liters of cooling space.

Dometic CFX2 37L Fridge Cooler - $790.00

Enough space to hold up to 48 cans!

Eureka 2-Burner Camp Stove - $137.50

Wool Shades - $150.00

Add style and privacy to your teardrop camper with these wool roll-up shades. Crafted from wool, they block out light while the leather straps add a rustic, timeless touch. Easy to roll up and secure, they blend function and design for the perfect camper interior finish.

Dometic CFX2 37L Fridge Cooler - $790.00

Enough space to hold up to 48 cans!

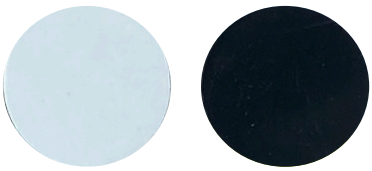

Eureka 2-Burner Camp Stove - $137.50

These are just a few of the options you can add to your teardrop build. We have custom capabilities and would be happy to talk with you about any additional requests you may have.
As an example, we have installed CPAP machines, hidden compartments and Starlink, just to name a few. Send us an email or give us a call to set up a phone or in person consultation today!

OVERLOOK

Testimonials

I looked at campers for over a year. I wanted one that I could take offroad but have some features that would be used in campgrounds as well. After comparing a lot of teardrops from all over the country, I kept coming back to Fantom Teardrops. In February of 2023, their website showed a Badlands version available. My wife and I were headed to a rental cabin north of Dalton, GA in Tennessee so I talked her into stopping by Fantom Teardrops. We saw how they fabricate these campers with precision and quality. Jeff and Denise were very helpful in explaining all the features of their campers. The Badlands has the offroad tires and wheels, torsion axle with electric breaks, a roof rack with an ARB awning, a solar system with battery, 110V power with 25' 30 amp power cord and many other standard features. Jeff added a few optional features we requested and in a couple of weeks we went back to pick it up.

We have enjoyed this camper even more than I thought we would. My wife was not much for camping until we got the Fantom Teardrop. We have visited many parks in Georgia, Alabama and Kentucky. It's very simple to set up and we love the outdoor kitchen. It is very comfortable to sleep in. There is plenty of storage space in both the kitchen and the cabin. I've done boondock camping and overlanding. It pulls very good on forest roads and trails. The solar system has been great and I've always had plenty of power.

I can't say enough about the quality of my camper and could not be happier with it. We are looking forward to many more adventures with our Fantom Teardrop.

-Jimmy & Charlotte Murphy

We have been happy owners of our fantom overlook premium. We spent quite a long time doing our research before buying. Things that mattered to us were of course quality first, price, and even resale. We use our camper a couple times a month so dependability is a factor as well. Fantom covered all the bases wonderfully. It pulls great. Is always an attention getter any place we stay.
Last of all we cannot say enough good things about Jeff. I have reached out to him a few times and he has always gotten back to me as well as answering any questions that I may have.
You won't be sorry with your purchase of a camper from fantom.

-Doug Pritchett

Testimonials

I have been a camper my entire life, starting as a Cub Scout in the 1950s until today! For most of those years I slept on the ground in a tent. When I turned 70 I decided that I needed to give up my tent and get a travel trailer. My first trailer was a 30' beauty with two slide outs and every amenity available. After spending three months hauling it around I knew it wasn't for me, I wasn't camping, I was hauling a house around and not enjoying the experience of camping outside! So I sold it and started looking for something that would allow me to sleep off the ground but still experience the joys of camping, NOT glamping. My search led me to teardrop campers. After researching a number of different brands I found Fantom Teardrops. I visited Jeff and Denise at their shop to see how their teardrops were built. I was immediately taken by the design and craftsmanship that went into every unit they build. The craftsmanship is beyond compare and their customer service is unparalleled in the business. I have now had a Fantom for three years and have camped in it for over 270 days. The Fantom, I call Griz because it is so tough, has performed beautifully under the toughest conditions, most of which have been boondocking. I wouldn't consider any other camper for the type of camping my wife and I do. If you are looking for a teardrop camper I would highly recommend a Fantom, I am certain you won't be disappointed!!
